

PRODUCTS YOU CAN COUNT ON — AT EVERY TURN

Tennant provides a complete portfolio of equipment to keep soft and hard floors — from small to large spaces — looking their best. Our innovative technologies create cleaner, safer school environments and our durable machines maximize operator performance and lower the cost to clean. All backed by our industry-leading service and support.

"First impressions mean everything and we want the right equipment to give that first impression. We've had a lot of success with the Tennant and Nobles line."

--Jeff Edgerly,
Assistant Director of Building
Services
— University of Notre Dame

FULL SUPPORT — TO KEEP YOU UP AND RUNNING

- Reliable cleaning machines manufactured in the U.S.
- We stand behind our products with warranties up to three years.
- We partner with our distributors to deliver industry-leading service to keep your machine running at optimal levels — at all times.

DURABLE MACHINES — ENGINEERED TO LAST

- Robust machines designed to work hard — so you don't have to.
- We design machines for maximum performance and lower cost to clean through engineering analysis, internal data and customer feedback.
- Our machines go through a rigorous testing and quality assurance process so you know you always receive the very best.

INNOVATIVE TECHNOLOGY — TO IMPROVE YOUR CLEANING PERFORMANCE

- Environmentally-friendly, detergent-free cleaning and equipment practices that help maintain indoor air quality and student health.
- Field-proven cleaning solutions that have received third-party recognition and certifications.
